

## Features

- Powerful high air flow 2 stage, 1000 watt Flow Thru motor.
- Manufactured from light weight yet robust ABS plastic, with integral moulded cord restrainer and tool holder.
- Ergonomically designed light weight frame, and adjustable straps for even greater operator comfort.
- Triple filtration to ensure quality cleaning.
- 18m, 10 amp electrical power cord.
- Over heating auto reset thermostat fitted in case of blockage.
- Improved serviceability.
- Full commercial grade tools.
- Australian Standards AS/NZS 3350.1.
- EMI compliance to AS/NZS 1044.

The Rocket Vac is fitted with a power outlet to operate a "Powerhead". The motorised powerhead is designed to convert the Rocket Vac to a super-fast, super-effective upright vacuum cleaner for cleaning deep pile carpet, carpet prone to heavy linting or traffic. This twin motor system gives high performance without weight.

Full set of commercial quality tools including stainless steel wands for longer wear. 1.2 metres commercial quality hose. Comfortable hand piece.
