

TOUGH TERRCO

industrial strength grinder / polishers

from INTERNATIONAL BUILDING SUPPLY

Cut floors flatter & faster with the strongest machines in the world

TERRCO – the machines that DO NOT BREAK

Grind and Polish Granite, Marble, Limestone, Sandstone and Polished Concrete with the most durable and reliable machines in the market place

- The indestructible TERRCO grinders don't need "annual rebuilds". In fact they would run for 15 to 25 years working every day before they might need bearings or an oil seal.
- Simple maintenance; just clean and grease the machine regularly.
- All TERRCO machines are direct gear driven. NO BELTS to replace.
- TERRCO are suitable for 'wet' or 'dry' application.
- TERRCO have the lowest running cost per m2.
- Adjustable weights to suit the process.
- Also used to repair rain damaged concrete + removal of vinyl + removal of epoxy + floor preparation.

TERRCO 200A

Smooth cutting & faster than some 3 phase machines

Single phase twin head
3HP 15 amp
Fastest twin head single phase, and a profile small enough for the tightest of grinding jobs
Available in either wet or dry set-up

MOTOR 3 H.P. 240 Volt, 15 Amp, 50 cycle, AC, single phase
DRIVE Direct helical gear drive. No belts to break or adjust.
DISC SPEED 314 rpm
DRIVE SHAFTS Chrome nickel steel, heat treated and ground.
GEARS Nickel steel heavy duty spiral
WATER TANK 20 Litres
MACHINE WIDTH 50cm overall
MACHINE HEIGHT 60cm from floor to top of motor.
From floor to top of handle bars: 89cm
MACHINE LENGTH 86cm overall
ABRASIVE PRESSURE 90kg
MACHINE WEIGHT 177kg

TERRCO 701

The fastest twin head in the world today

Twin head 3 phase 6kw
Optional variable speed
Available in either wet or dry set-up

MOTOR 230V, 3 phase 6KW
SPEED OF DISC 391 rpm
SWEEP OF DISCS 71cm
WATER TANK 25 Litres
WIDTH OF MACHINE 71cm
LENGTH OF MACHINE-HANDLE UP 75cm
LENGTH OF MACHINE-HANDLE DOWN 145cm
ABRASIVE PRESSURE 200kg
WEIGHT NET - MACHINE ONLY 365kg

Jim Vinella, President of TERRCO, established 1936, and Ivan Imerman of TERRCO Australia and Asia Pacific

TERRCO EDGER

So well balanced you can control it with one hand

3HP 15 AMP plug
Cuts edges faster and flatter than any other machine
Strongest & most durable edger in the world
Direct feed fitted tank
Adjustable distance from wall
Three setting arm: left or right or straight
Cuts edges faster and flatter than any other machine
Strongest & most durable edger in the world
Wheel height adjustment
Available in either wet or dry set-up
MOTOR 3HP, 240V, 15 Amp, 50 cycle, AC, single phase

IBS has a large range of range of grinding wheels and pads from 50 to 3000 grit

TERRCO are still servicing machines, in service, that are 50 years young.

TOUGH TERRCO

industrial strength grinder / polishers
from INTERNATIONAL BUILDING SUPPLY

THE BIG ONES!

TERRCO 3100

Large jobs have never been so easy:
Out-produces and out-grinds any
4 disc machine in the world today

Fastest 4 header
650kg 25HP
Optional variable speed
Levelling system for perfectly flat floors
Available in either wet or dry set-up

MOTOR 25HP, 3 phase, 50Hz, 415v
SWEEP OF DISC 70cm x 70cm
STONE SHAPE 50mm plug type
WIDTH OF MACHINE 78cm
LENGTH OF MACHINE 183cm
WATER TANK 90 Litres
ABRASIVE PRESSURE: WEIGHT UP 365kg, WEIGHT DOWN 495kg
WEIGHT OF MACHINE 650kg

TERRCO 6200

The Fastest Machine
in the World

8 header
1045kg 40HP
Self Drive & Variable speed
Self Drive with forward & reverse
Removeable weights for polishing
Dry set-up

MOTOR 40HP, 3 phase, 60Hz, 460v
AMPERAGE DRAW 46 amps
WIDTH OF MACHINE 142cm
LENGTH OF MACHINE 203cm
WEIGHT OF MACHINE 1045kg
