| Skin Contact: | Wash skin with plenty of water. Remove contaminated clothing and wash before reuse. Seek medical advice if irritation develops. |
| Inhalation: | Remove victim to fresh air away from exposure - avoid becoming a casualty. Allow patient to assume most comfortable position, keep warm and at rest. If breathing is difficult administer oxygen. |
| Ingestion: | Do NOT induce vomiting. If conscious, rinse mouth thoroughly with water and give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice. |
| Advice to Doctor: | No specific antidote. Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. SECTION 5: FIRE FIGHTING MEASURES

| | |
|----------------------------|---|
| Fire and Explosion Hazard: | Water based, not combustible. However, if involved in a fire will emit toxic fumes. |
| Extinguishing Media: | Use fine water spray, normal foam or dry agent extinguisher (carbon dioxide or dry chemical powder). |
| Fire Fighting: | Keep containers exposed to extreme heat cool with fine water spray. Fire fighters to wear self contained breathing apparatus if risk of exposure to products of combustion or decomposition. Evacuate area and move upwind of fire. |
| Flash Point: | None. |
| Hazchem Code: | None. |

SECTION 6: ACCIDENTAL RELEASE MEASURES

| | |
|---------------|--|
| Minor Spills: | Do not normally require special clean-up measures. Absorb spills and rinse area with water. |
| Major Spills: | For example transport accident or bulk spill. Clear area of unprotected personnel. Prevent spillage from entering drains or watercourses. Wear appropriate protective equipment (see section 8) to prevent skin and eye contamination. Contain spillage, then cover/absorb spill into dry, inert material (e.g. sand, earth or vermiculite), collect and place into suitable containers, appropriately labeled, for disposal by an approved agent according to local conditions. Spillage area may remain slippery. Flush spill area with water and consider neutralisation with SODA ASH or SODIUM BICARBONATE. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services. |
| PPE: | Personal protective equipment advice is contained in Section 8 of this document. |

SECTION 7: HANDLING AND STORAGE
